

Tiny feathers falling gently from the sky...

They are downy soft, feather light and available in 40 beautiful colours. They are uniquely different! You can give them to guests at a wedding to strew over the bridal pair - although they can also be used beforehand to form a beautiful bridal path. Consider tiny ostrich feathers for any festive table, theme party, corporate function, matric farewell, beauty contest, high tea, a mask or headdress.

Use them creatively in stage decor, on lampshades, cushions, costumes, fans, special cards or as Christmas decorations.

The size of the belly feathers is approximately 8cm x 5cm and smaller.

Ostrich feathers are available in different sizes, colours and quality grades at the original KLEIN KAROO Ostrich Boutique.
